

第 67 回日本神経化学学会大会 「福岡宣言」

* 日本神経化学学会は、日本神経科学学会及び日本生物学的精神医学会と組んだ初めての3学会合同大会「NEURO2024」を経験し、当学会が創立期から掲げる特徴「分子と病態」への思いを新たにしました。今でこそ精神、神経疾患の病態を分子レベルで理解するという姿勢は当たり前であるが、今から半世紀前はそれは大きな夢であり挑戦であった。この間、ヒトゲノム情報の解読、次世代シーケンスの登場、各種イメージング技術の発展、数理統計学やAIの開発等、異なる分野で生まれ発展した技術及び学問が、脳疾患の分子病態解明に大きな貢献をしている。今大会のスローガンは「分野の境界を越えて未来へ」である。今回の3学会合同大会を契機とし、我々は分野を超えた新しい技術、学術及び人との交流を加速させ、自らの研究を大きく改革・発展させたいと思う。しかしその際にも本学会員は、温故知新の精神を維持する。よってここに、分野融合の高い視座を持ち、新しさと伝統を融合させることにより、「分子と病態」解明の道を邁進することを宣言する。

The 67th Annual Meeting of the Japanese Society for Neurochemistry "Fukuoka Declaration"

- * The Japanese Society for Neurochemistry (JSN), together with the Japanese Neuroscience Society and the Japanese Society of Biological Psychiatry, held its first joint meeting "NEURO 2024" and reconfirmed its commitment to "Molecules and Pathophysiology," a characteristic that the JSN has held since its foundation. Today, it is commonplace to understand the pathophysiology of psychiatric and neurological disorders at the molecular level, but half a century ago, this was a big dream and a challenge. During these periods, technologies and disciplines born and developed in different fields, such as the decoding of the human genome, the advent of next-generation sequencing, the development of various imaging technologies, and the development of mathematical statistics and AI, have contributed greatly to the elucidation of the molecular pathology of brain diseases. The slogan of NEURO2024 is "Transcending borders for the future". We would like to use this joint meeting of the three societies as an opportunity to accelerate the exchange of new technologies, academics, and people across disciplines, and to greatly reform and develop our own research. In doing so, however, the JSN members will maintain the spirit of "learning from the past". We hereby declare that we will continue to push forward on the path of elucidating "Molecules and Pathophysiology" by maintaining a high perspective of interdisciplinary fusion and combining newness with tradition.
